

NANOFIBER HVAC FILTERS

Our nanofibrous filters are engineered to deliver high filtration efficiency and minimal pressure drop, making them suitable for use in both commercial and residential HVAC systems. Additionally, our filters can be designed to be static-charge-free, which extends their lifespan.

PRODUCT	FILTER CLASS	Nominal Size, inch (L x W x D)	RESISTANCE, H ₂ O wg	CHARGED
MXH-001	MERV 13	20x20x1 20x20x2 24x20x1 24x20x2 Or Others	0.14	NO
MXH-002	MERV 14		0.14	NO
MXH-003	MERV 15		0.21	NO
MXH-004	MERV 16		0.23	NO
MXH-005	HEPA		0.27	NO
MXH-006	HEPA		0.23	YES

***Our filters can be functionalized with activated carbon or other antimicrobial agents.**
